1. INTRODUCTION OF WTIA

INTRODUCTION OF WTIA

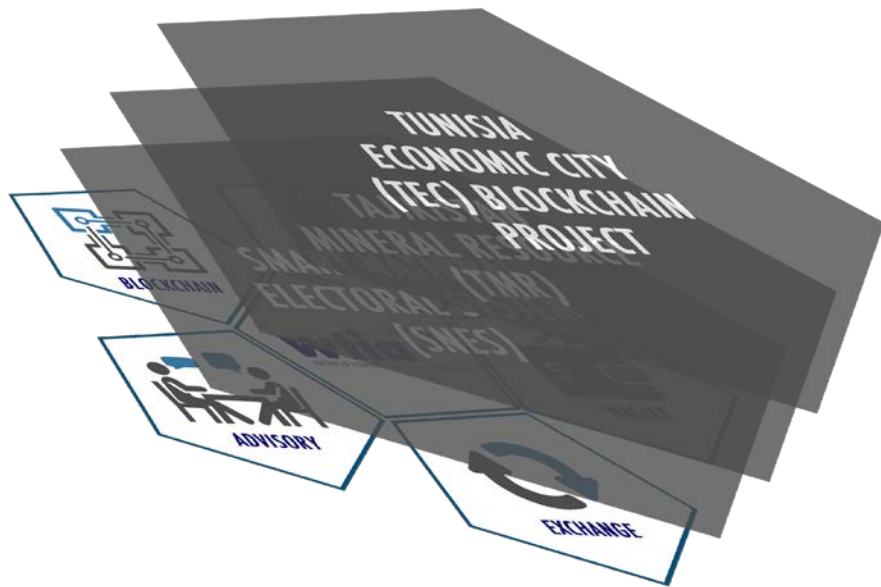

ABOUT THE WTIA

The World Token Issuing Alliance (WTIA) is the advisory and capital market solution of some of the biggest real-world blockchain projects in the world. Projects include sovereign-level assetization programs, utility-token driven business models for listed companies, tokenized infrastructure securities, high technology applications and much more. Governments and large corporations seeking a new paradigm in management, asset utilization, business development and stakeholder engagement have joined the WTIA.

INTRODUCTION OF WTIA

WTIA is founded by people with a very open mind with legitimate and proven powerful networks throughout the world. WTIA may be the major gateway in grouping a variety of natural resource trading of the world. It is our belief that we can assist in uniting world market into one. We provide direct international foreign relations between nations and corporates. We assist in a many areas of industries internationally and intra-nationally. Our goal is to become the go-to alliance for governments and large corporations to embrace blockchain technology, creating new value propositions for users, and offering strong returns for investors. We are creating a new financial ecosystem for assets and blockchain technology to interact, creating an environment where cryptocurrency can be accepted as a medium of exchange for global asset and utility trading. At WTIA, we believe that the time has come for governments and businesses from around the world to adopt Initial Coin Offerings (ICO) and Security Token Offerings (STO) to gain access to corporate financing solutions. WTIA has the required tools and expertise – in the form of easy access to rapid funding, professionally tailored teams, and support services – to provide governments and businesses with the opportunity to change the paradigm and utilize blockchain technology to create a level of trust in the system that had been previously missing.

WTIA acts as the platform for other blockchain projects to develop on, giving the projects the solid foundation that they need to succeed.

The WTIA Blockchain

We provide all of WTIA projects a grounding with the latest in blockchain technology with the WTIA Blockchain. Partners that WTIA work with can build their applications with the WTIA Blockchain Technology and Protocol.

The blockchain is a growing list of records, called *blocks*, which are linked using cryptography. Each block contains a cryptographic hash of the previous block, a timestamp, and transaction data.

STEALTH SOLUTION

led by Dr. Anatoly Klepov

UNHACKED THE FUTURE

According to Symantec, in 2016 Hackers Earned...

500 Billion USD

According to Gartner Research, Hackers Can Pick Up
Passwords at the speed of...

56,000,000,000
passwords/sec

According to the report of Allied Market Research by 2020 mobile information security market will reach \$34.8 billion. WTIA is trying to develop an absolute security smart phone that can not be hacked with Dr. Anatoly Klepov who is working for 46 years on Russian and world market of encrypted systems communication and cryptography.

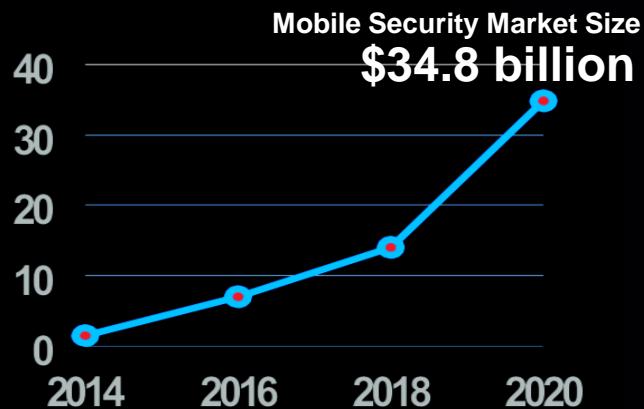

SUSTAINABLE LINKED REAL BUSINESS

UNHACKED REAL PRODUCT DEVELOPMENT : MOBILE SECURITY MARKET ANALYSIS

Mobile Security Market Size & Number of Mobile Device

- In 2014 the share of mobile phone information security in the total spending on data protection was only 5%
- According to the report of Allied Market Research by 2020 mobile information security market will reach \$34.8 billion

Number of Mobile Phones used in 2015: 6,000,000,000

Estimated Number of Mobile Phone use in 2020: 20,000,000,000

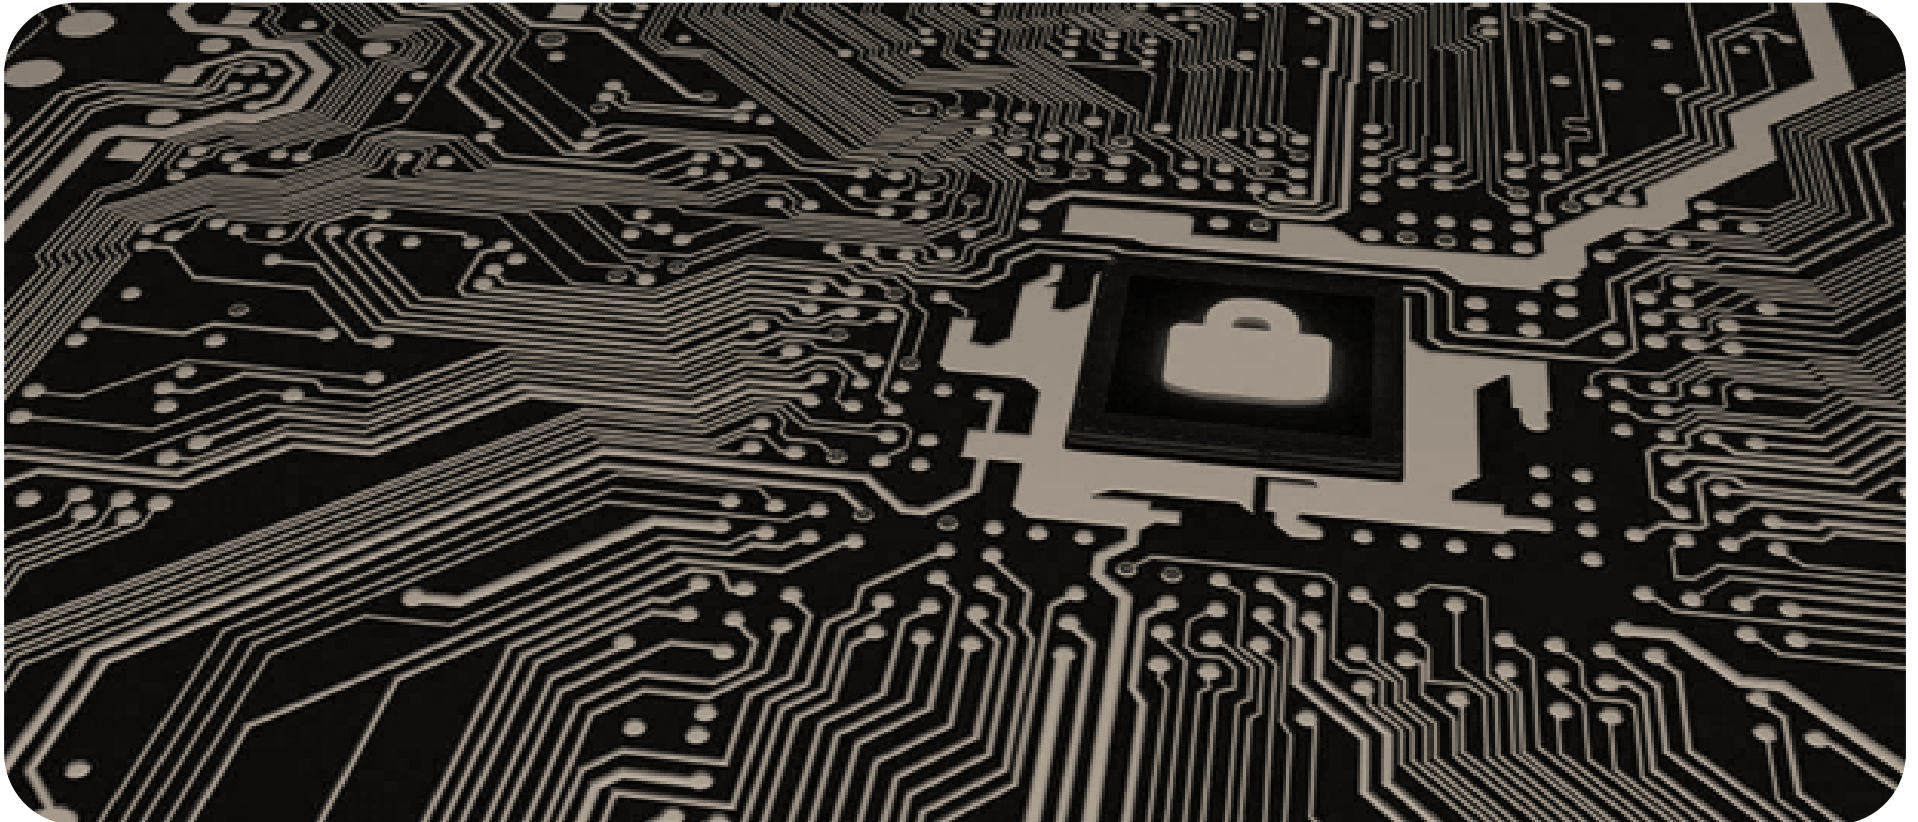

Type of Device	2016	2017	2018	2019
General PC (Notebook, Desktop)	220	204	195	188
Ultra Mobile (Premium)	50	59	70	81
Total PC Market	270	263	265	269
Ultra Mobile (Basic & Utility)	169	162	161	160
Total Computing Device	439	425	426	429
Cell Phone	1,893	1,882	1,926	1,932
Total Device	2,332	2,307	2,352	2,361

Such growth of the market by 2020 is due to the fact that 95% of internet connections will be done from mobile phone and tablets.

SUSTAINABLE LINKED REAL BUSINESS

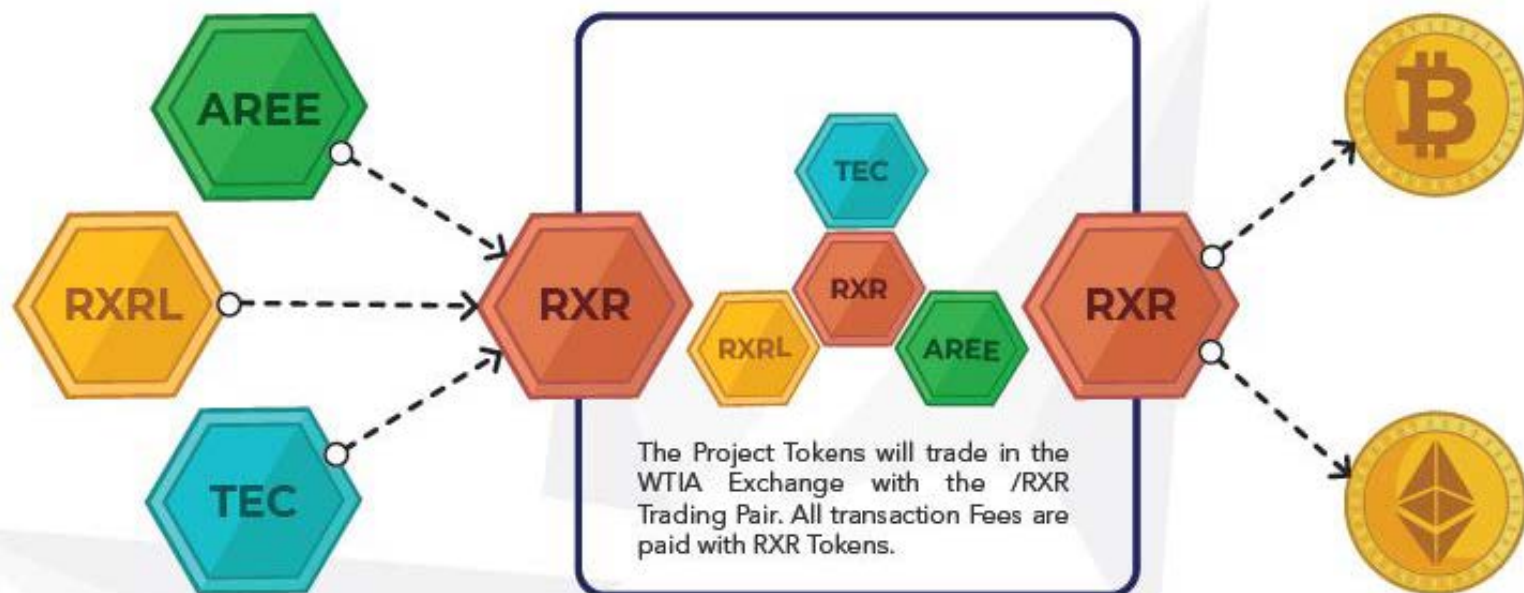

UNHACKED REAL PRODUCT DEVELOPMENT

We create a unique Blockchain in the world with hardware information protection, which complies with TeMpest standard and cryptography, which cannot be decrypted by quantum computers! There is no such company in the world. It is always necessary to be the first in the world. All companies that create Blockchain only software protection system. And the cryptography used in them is decrypted by quantum computers.

SUSTAINABLE LINKED REAL BUSINESS

RXRL : LOGISTICS COIN BY WTIA

In order to get into the WTIA Eco-system and the WTIA Exchange, the projects under WTIA will have to swap a certain % of their tokens for RXR tokens at a pre-determined rate. That will also set the listing price of the token.

There are 3 levels of RXR Traders depending on the amount of RXR Tokens the Traders are willing to stake and lock up.

- GOLD LEVEL** Market Makers or Institutional Traders (Zero Trading/Transaction Fee)
- SILVER LEVEL** Professional Traders (50% Less Trading/Transaction Fee)
- NORMAL LEVEL** Professional Traders (50% Less Trading/Transaction Fee)

RXR Tokens are exchangeable for BTC and ETH on the exchange. Users can cash out on the OTC Exchange to fiat.
